Size: 68"/ 1727 mm
 Model: DCBH
 Coil type: Copper
 Field: Deep
 Weight: 14200 lbs/ 6455 kg
 Voltage: 230 DC
 Cold amperage: 88
 Cold ohms: 2.6
 Kilowatts: 20.2
 Duty cycle: 75%

Average All Day Lifting Capacities

Drop Ball	40000 lbs/ 18144 kg
Billet or Slab	90000 lbs/ 40909 kg
#1 Hot Melt	5800 lbs/ 2636 kg

Standard Features: Drop Ball Magnet

- Standard grade 80 magnet chain
- Field replaceable center pole shoe
- Class H coil insulation with ample sized conductor for a cooler operating coil
- Case construction: fabricated A-36 steel with large armored terminal box and anti-wear hardfacing bands on pole shoes
- One year warranty on materials and workmanship
- Delivery: stock subject to prior sale, call or email for current status
- Weights, measures and specifications may vary slightly due to standard commercial manufacturing tolerances of raw materials.
- Lifting capacities stated are based on optimum operating conditions. Variations including type of steel, rough or uneven surfaces, dirt and debris, temperature of material, magnet and surrounding atmosphere, surface area the magnet covers, and elements of the magnet system, may cause capacities to be reduced.
